Second place in scifi and project expo  
AI Python for Beginners

# Syed Ghulam murtaza Shah

Developer of software | Innovating One Line of Code at a Time  
Khairpur District, Sindh, Pakistan

## Summary

As a dedicated student at Sukkur IBA University, my journey in Computer Science is shaping my analytical and coding competencies, particularly in Java, C#, and Java Swing. These tools are the cornerstone of my educational experience, as I navigate through complex problem-solving tasks and academic projects.

While my formal education continues through to 2027, my goal is to intertwine my classroom learning with practical applications. The aspiration to become a computer scientist drives me to seek opportunities that will bolster my current knowledge and prepare me for the dynamic tech landscape.
